

5 Day ISO 22301 Lead Implementer Workshop

Course description:

The ISO 22301 identifies the fundamentals of Business Continuity Management (BCM) and provides a basis for implementing a world-class Business Continuity Management System within any organization. Our 5-day 22301 Lead Implementer Workshop provides an intensive and comprehensive learning experience for those wishing to understand in great depth the fine details of the ISO 22301. Training methodologies include power-point-based classroom lectures, group discussions, and individual/group exercises based on a case study, and videos. Participants who pass the exam to be held at the end of the workshop will be able to call themselves ISO 22301 Lead Implementers, having covered in the course the clauses of the ISO22301 and also the hands-on exercises of implementing BCM in line with the ISO 22301. Our Trainers for this workshop typically possess 2-3 certifications in BCM and have 5-10 years hands-on experience in Business Continuity and Emergency Response.

This workshop entitles you to 40 CPE credits.

Learning Objectives:

- To Understand the implementation of a Business Continuity Management System (BCMS) in accordance with ISO 22301
